EXPERIENCE

**GB Tech**
September 2022 - Till Present
Front End Developer

PROJECTS

• **CodeWithMe**
• CodeWithMe is a launchpad for software engineering training.
• I developed the website using [HTML5, CSS3, Bootstrap, and JavaScript]

• The link to the project is [https://code-with-me-nine.vercel.app/index.html] or the GitHub repo [https://github.com/DakulTech/codeWithMe]

• **Dakul Tech website**
I built responsive landing page from stratch using HTML, CSS, Bootstraps and JavaScript.
It has both About us and Contact features to enable users get more information about the landing page.

• **Weather App**

I developed an easy to use weather app with JavaScript and weather forecast API

• **Buy and Sell**

It's a cryptocurrency exchange landing page that generates $ rate update from coingecko API.

• **To-do App**

A to-do-list app with great UI/UX simply built with raw JavaScript
